Final MH-53 Pave Low leaves RAF Mildenhall

11/30/2007 - Members of the 352nd Maintenance Squadron at RAF Mildenhall, U.K., guide the last MH-53 Pave Low from the 352nd Special Operations Group's 21st Special Operations Squadron onto a C-17 Globemaster III Nov. 29. After securing the helicopter inside the aircraft, a team of nine maintainers loaded their own bags aboard the aircraft and traveled with the helicopter to its new home, the 20th SOS at Hurlburt Field, Fla., where they will rebuild the airframe. The MH-53 Pave Low is scheduled to retire from the Air Force inventory in September 2008. (U.S. Air Force Photo/Master Sgt. Dennis Brewer)
