We are seeking an article from The MATS Flyer. The article is "[Controller 1, Pilot 0](#)" and appeared during the 1955-1961 time frame. If you know how we may get a copy please let us know.

Erich Anderson has created a website paying tribute to U.S. Military Veterans. He contacted us stating it might be of interest to our group because he has created tributes for several Air Force Helicopter crewmen, including Arthur Black, Duane Hackney, Warren Lilly, Duane Martin and Oliver O'Mara. All of his work is at his own expense and he stated he is willing to do one on members of our group. He would need a good photo, bio, military records, etc. If you are interested his website is [www.veterantributes.org](http://www.veterantributes.org). He may be contacted through his website or email at [Erich@veterantributes.org](mailto:Erich@veterantributes.org)

For all Air Force (to include AFRC and ANG) helicopter active duty, veterans or retirees. Does your mind sometimes wander off and bring back memories of old friends, humorous tales, war stories, times when the pucker factor was pegged high or just the plain "no s\*\*t there I was" stories? Does the CRS factor tend to dull the clarity of your thoughts? What would you say should you locate a place where you could store all those rich memories of yours before CRS further erodes them and they are lost forever without your grandchildren ever knowing? Do you recall the action that was taken when something was threatening the valuable machines we flew and maintained? The alarm would sound and the call went out to "hangar" the birds for safekeeping. There is such a "hangar" for storing all the above mentioned historical data of yours for safekeeping and that is the *USAF ROTORHEADS* [website](#) and [blog](#). As you browse these "hangars" you will find that numerous members have stored many of their memories where all can enjoy. We encourage our members continue to store additional items in

*"GONE BUT NOT FORGOTTEN"*

the hangar. If you are not a member of *USAF ROTORHEADS* we invite you to join us before CRS blocks all of your Air Force helicopter experiences. We have plenty of storage space in the hangar and we will "leave the light on for you" in order for you to browse through the "hangar" at your leisure.

Have you viewed our website lately? Our website is being updated frequently, usually every 7-10 days. There is a link on the home page linking to a listing of new additions. This prevents searching the site to determine what has been added. A large amount of our rich helicopter history has been documented, however there is a considerable amount remaining. Send in your stories and pictures and if you are not a member consider joining us and assist with our goal of documenting our valuable history.

Did you know the H-53 was utilized to carry an FSK? The H-53 carried the FSK in support of the Space Shuttle program. It only contained water which was used to rinse space debris from the capsule. It is believed this is the only mission the H-53 was utilized to carry the KSK.

The 20th Helicopter Squadron is planning their 3rd reunion. Tentative plans are **Oct 9-12, 2008** in Tucson, AZ. Igor Ivanoff and Jim Mardock are the contacts. For details check [website](#).

**16-18 Oct 08**- Only 20th SOS (NAM 66-72) (76 - Present) 43rd reunion at Hurlbert Fld Fla). Contact -- Robert Hall or John Grove for more information or questions. NOTE: This event is to combined with the 20<sup>th</sup> reunion and deactivation ceremony.

**16-18 Oct 08** - 20th SOS Deactivation Ceremony, Pave Low reunion and banquet and Air Park Memorial (H-1, H-3, H-53). Check Pave Low [website](http://www.thepavecave.com/) <http://www.thepavecave.com/> for further details.

The next USAFHPA reunion will be at Colorado Springs, CO, home of the Air Force Academy in **September of 2009**

*"GONE BUT NOT FORGOTTEN"*

Check the "Reunions/Special Events" page on our website for additional reunion information. <http://rotorheadsrus.us/documents/537.html>

Are you interested in checking on current legislative issues? There are several sites where you can check. One to check is Military.com at <http://www.congress.org/military/issues/>.

We are seeking information concerning the shipment of an ex-Air Force H-3 helicopter that went to Egypt during the Carter administration. If you have any information please contact us.

Jim Mardock is attempting to determine the tail numbers of the 14 CH-3s that were sent from Eglin AFB to Tan Son Nhut in Dec 65 as the 20th SOS. Check our Message Board for more details and a place to respond if you have additional information.

The Navy apparently loaned at least two UH-34Js to the Air Force from the 6th of Jan 1965 to the 25th of April 1966. If you have information about the loan of these helicopters please contact us.

### **"H-43 Information"**

For all of you H-43 fans, especially those that served in SEA on that grand old bird, Johan Ragay has received copies of all the old Kaman "Rotor Tips" from Kaman with authorization to publish the stories on his website. He has published several of them and has more to go. If you can assist him with any info such as dates on some of these stories it would be greatly appreciated. You may contact him through his web site which is <http://www.h43-huskie.info/>.

Check the "[Links](#)" page on our website for links to other sites that document and preserve Air Force helicopter history. No one site can gather all the information so with a concerted effort we are doing a great job. These other sites have a significant amount of history posted. Check them out.
